Capability Statement

Chaptico Hundred empowers public and private sector organizations with expertise in science, management, technology, strategy, and engagement to invent, implement, and sustain transformative ideas that shape the future.

Why Chaptico Hundred?

At Chaptico Hundred, we believe success in the work we do is founded on relentless commitment to our guiding principles – partnership and design. Within the partnerships we nurture, your goals become our goals, and your mission becomes our mission. In choosing Chaptico Hundred, you are choosing a partner that works for your success. *Partnership is key.* In parallel, we believe inspired design is essential in crafting rigorous methods, cultivating effective teams, advancing useful systems, and framing compelling messages. Excellence in design translates ideas into sustained success, ensures teams work seamlessly, and shapes systems that really work. Inspired design seizes the imagination. *Design is everything.*

Why Chaptico Hundred? Partnership. Design.

Partnership

Engaged partnership connecting your team with our team cultivates sustained success. *Your mission is our mission.*

Design

Inventive design of methods, teams, systems, and messages transforms ideas into results. *We design for your success.*

Our Five Pillars

To achieve success for our clients, we **connect** people with ideas and processes, **invent** novel methods, **empower** teams to achieve success, **transform** ideas into results, and **sustain** the initiatives entrusted to us.

Connect

Connect your talented people with teams, processes, systems, and policies to foster success. *We can help.*

Invent

Invent novel approaches equipping your organization to thrive in the face of adversity. *We can help.*

Empower

Empower your organization with expertise in science, management, technology, and more. *We can help.*

Transform

Transform your organization, its people, and its processes to embrace and shape the future. *We can help.*

Sustain

Sustain your exploratory successes as enduring and meaningful organizational change. *We can help.*

Our Practices

We specialize in five practices - science, technology, management, strategy, and engagement. Our work in each practice is guided by our Principles and Five Pillars. Thus, we provide expertise, guidance, and services founded in concepts that will ensure our work truly works for you.

Science

Inventive science. Evidenced-based transformation.

Applied evidence fosters success. We apply expertise in regression analysis, time-space cluster analysis, multilevel modeling and more.

- Data Science
- Geospatial Science
- Health Science & Epidemiology
- Modeling & Data Analysis
- Data Visualization
- Scientific Writing

Technology

Purpose-driven technology and data. Unleashed effectiveness.

Integrated technology empowers. We advance digital ecosystems with a focus on interoperability, re-use, standards, governance, and more.

- Cloud-native Technology
- Web & Mobile Applications
- Interoperability & Standards
- Health Informatics
- Geospatial Technology (GIS)
- Analytics & Reporting

Management

Connection-driven management. Profound outcomes.

There are no silver bullets. Thus, we combine data-driven Lean Six Sigma principles dynamically adapted to achieve success in efforts of any scale.

- Program & Project Management
- Business Process Optimization
- Change Management
- Knowledge Management
- Organizational Interoperability
- Continuous Improvement

Strategy

Expanded planning vistas. Sustained success.

Visionary planning pairs best with rigorous measurement. To help your organization evolve, we blend time-tested frameworks - such as OGSM - with modern approaches like OKRs and continuous strategic alignment.

- Strategic Planning
- Strategic Management
- Organizational Modeling
- Program Evaluation
- Organizational Transformation
- Public Policy

Engagement

Compelling engagement. Deeper mission understanding.

Vivid engagement resonates. To help you build effective outreach and cultivate rich partnerships, we apply expertise in communication design, information architecture, and partnership continuum models.

- Communication Design
- Digital & Social Media
- Partnership Development
- Design, Identity & Visual Systems
- Campaigns & Promotions
- Event Planning & Management
